PETER BEARDSLEY'S

INTERNATIONAL FOOTBALL

THE BEST PIECE OF
SOCCER ACTION
THIS SIDE OF
MATCH OF THE DAY

Peter Beardsley's International Football gives you the chance to take part in an International Tournament against the cream of European football.

Featuring large animated sprites and against a colourful backdrop of passionate supporters you must pass, tackle, dribble and shoot your way to be the top team in Europe.

Players control the teams participating in the tournament and the computer simulates the results of the other group matches to add to the tension of qualification. Then its straight into the sudden death semi-finals and final.

All teams play in their authentic colours (or change colours if their is a clash) and the game also features a whistle happy referee, an excitable commentator, three way throw-ins plus a tuneful football anthem to get you in the right mood.

SORRY, there is no Referee or Commentator on this version due to machine limitations.
